

3rd – 7th Artists in Motion

Featuring Fiber Art

In this class we will be setting aside our paint brushes, and using our craftsmanship skills to try something new. Join us as we discover creative, yet functional textiles including weaving, sewing, and embroidery. Using fibers such as yarn and string to create art is perhaps one of the oldest, functional, and fun arts and crafts. People have always needed baskets, rugs, and clothes... but these techniques can also be turned into beautiful art. We will learn some basics of different fiber arts, how to add a touch of creativity and personalization to an item of clothing we already own, as well as create woven wall hangings. Learn how modern artists are introducing fibers and textiles into their work today!
